

Call Center Project

Pitch:

Hello John how are you today? You came to the Playa del Carmen a few months ago, I have very interesting information to share with you about real estate investing. (hear me out) Real Estate Investing is a smart way to make your money grow unlike other investments options in the market; real estate investments involve lower risk, offers and provide greater stability and low volatility to your capital.

Does this subject interest you John? Great

The reason for the call today John is because the market has taken a 360 since last year and Playa del Carmen is growing at a fast rate; did you know playa del Carmen is the fastest growing city in Latin America? John I haven't seen this growth; perhaps this is the best thing I have seen in my real estate experience here in Mexico. I would like to share the information with you it will only take a few min, do you have five min? Ok great

The name of the company is HH Luxury Investments we are a cutting edge company with 12 years of experience in Playa del Carmen. Currently we have a spectacular development called Siaan Playa 2 blocks from the beach, It's a new trend that has arrived to playa and nobody has seen a unique design like this. From what our analyzes have projected next year in April 2016 the value will increase a 15% of your purchase value.

HH Luxury Investments Property don't duplicate.
